+989364447435

Skills

HTML | SCSS | Tailwind | TypeScript | React | NextJS | Angular (V16+)

Experience

Jan 2023 - Jun 2024

NilaSoft - Front End Developer (Internship)

FEBRUARY 2024 - May 2024

Epic Games Mock Project

- Implement the majority of the structure with reusable components
- Used Internationalization to handle the text inputs
- Used new Angular Signals in inputs, etc
- Used RxJS
- Used Git efficiently and consistently

Source Code: <https://github.com/AmirAbaris/epic-games>

Back-end mock data is required to fetch its data (expressJs):

<https://github.com/AmirAbaris/JSON-server>

My 2024 - Jun 2024

Dashboard Project

Source Code: <https://github.com/AmirAbaris/dashboard>

- Module-based routing and clean code are its highlights
- Implemented dashboard and side nav with different routes and handled the features with pipes, directives, etc.
- Used Git efficiently and consistently
- Used regions and consistent code structure between components and logics
